Calls to Inmarsat A	\$ 5.50	\$ 5.50
Outbound SMS \$0.35 ea (receiving SMS is FREE)		

BASIC RATE CALLS refers to all calls to public switched telephone numbers (PSTN) anywhere in the world. Some PSTN numbers may not be open to Thuraya subscribers. Calls to other satellite phones are at different rates and are not Basic Rate calls.

GSM-MODE CALLS: Some Thuraya phones have a GSM cellular mode. The rates shown on this document only describe rates for Thuraya-mode calls. GSM-mode calls are at different rates, and the rates depend on the regional GSM operator on which the phone is roaming when the calls are made. It is the customer's responsibility to know the cost for making or receiving calls or SMS messages before making the calls. Outbound GSM cellular calls are not available using a prepaid SIM card.
